**PowerSchool 9.1.1**

This PowerSchool upgrade contains major enhancements and resolved issues. It also contains a major update to the Oracle database from version 12.1.0.1.0 to version 12.1.0.2.0.

**PowerSchool** key features include:

1. The look-and-feel has been updated to make it easier to view.
2. The PS Admin login page has the login ID and password split into 2 fields.
3. The Attendance page has a new tab that displays a new attendance grid allowing you to filter, sort, set and use a student selection, as well as export student attendance data in multiple formats including XLSX, PDF, and CSV. It also displays attendance counts that are dynamic links to the data grid.
4. Enhancements to PowerScheduler.
5. Enhancements to the Automated Calendar Setup page.
6. You now have the ability to delete future attendance when transferring a student out of school. This feature is available on the Transfer Student Out page in PowerSchool.
7. Java security upgrades have been applied to the server side.

**PowerTeacher** key features include:

1. The PowerTeacher home logo is now labeled PowerSchool.

**PASI** key features include:

1. PASI Student Profile now shows student courses and marks from PASI.
2. PASI SCM Direct Connect is now available for senior high schools.

**PowerTeacher GradeBook:**

No changes.

**EPSB customizations** include:

1. On the Additional Enrolment Information page, in the Citizenship Documentation and Expiry Dates section, we have changed Change "Permanent Residency" to Permanent Resident (Card) and added "Confirmation of Permanent Residency (Letter)".
2. We are also adding some additional CTS setup validation reports.
3. On the PASI Core Alerts page we have added links to 2 documents to help the users with their PASI alerts.
4. On the Direct Data Export (DDE) page we have added 3 additional Search options.

## **November 20, 2015**

### **PowerSchool**

Two new assessment reports:

- Grade Distribution Report. Provides a breakdown of grades in your school with various options available.
- Teacher Score Code Report: Lists all the custom score codes being used in teacher Gradebooks.

Added the option to print Student ASN on Classlists

Diploma Blended Marks have been renamed "Diploma Official/Blended Marks" on all reports

Parent email addresses are now maintained by parents in SchoolZone

New Student Previous Year GLP Report can be found under Special Functions -> School. This report lists previous year end GLP values for students.

### **PowerTeacher**

New Student Previous Year GLP Report can be found under Custom Reports

Added a link to Student Network Password Change (under Links)

Added the option to print Student ASN on Classlists

### **Progress/IPP Module**

Revised Measles section on the field trip form

GLP for Second Languages has been added

Progress Reports - Student address was removed from the high school report card

## **March 17, 2015**

### **PowerSchool**

#### **Radio Buttons for Parent #1 / #2 / Legal Guardian**

There has been a change in PowerSchool to the Radio Buttons for Parent #1 / #2 / Legal Guardian.

When a school enters information in the parent 1 or 2 fields and selects the radio button "Legal Guardian", the relationship field will automatically populate with **Legal Guardian**.

If a school believes it is important to capture the relationship between the legal guardian and the student, the information can be entered in the Family Circumstances page. For example, a school may wish to note that the legal guardian is the uncle. This change has been made to ensure that the critical relationship - legal guardian - is captured.
